

MATERIALS LIST

Customer name

E-Mail

Project name

Project address

Fence length meters

Number of strainer posts

Number of struts

Number of intermediate posts

Number of gates

Application

Fencing rolls required

Additional materials required

Preferences

Please Note: Struts are based on two struts per strainer. For every termination of the fence line please remove one strut from the materials list.

Please be aware that, due to varying ground and project conditions, precise quantities of materials required (such as posts and staples) may differ slightly to calculations provided.
